

Installation Instructions – Parts Patrol Cost Recovery System

1. Download from the link provided or copy from the CD provided the installation file (zip folder) to your desktop.
2. Extract the zip folder if need be.
3. Open the Cost Recovery folder.
4. Double click on the “setup” icon to start the installation process and follow the standard prompts.
5. After the program has been installed, plug in the scanner.
6. When prompted to install the scanner driver, answer the question with “Not at this time” and then follow the standard prompts.
7. You will see a cost recovery shortcut icon on your desktop. This is the application where you login and send barcode data (repair order information and items) to the site.
