3M™ Wheel Weight Surface Prep 1000

Fast efficient Surface Preparation

An Improved Solution for Wheel Weight Surface Prep

The 3M Automotive Division balances responsibility and innovation with the 3M™ Wheel Weight System Prep. It is a self-contained cleaning system that uses a disposable bottle with an angled neck, citrus-based solution, and a Scotch-Brite™ scrubbing applicator pad. This system increases productivity and reduces the amount of cleaning solution used, while providing improved wheel weight adhesion performance.

Key Features

The 3M™ Wheel Weight Surface Prep 1000 is designed to be applied and to clean only where it is needed without overspraying or overpouring cleaning solvents, such as brake cleaner, on tires and rims. The ergonomically shaped bottle, coupled with the angled neck, allows access to hard-to-reach places while cleaning the rim. The citrus-based solution will not leave a residual film. The Scotch-Brite™ scrubbing applicator top controls solution flow, cleans the surface quickly and allows for localized cleaning to reduce cleaning solution waste. The result is an efficient and productive cleaning process. This product is designed to work with the 3M™ Wheel Weight System TN-2000.

The 3M™ Wheel Weight Surface Prep 1000 consists of a disposable bottle with an angled neck, citrus-based solution, and a Scotch-Brite™ scrubbing applicator pad. Use the 3M™ Perfect-It™ Show Car Detailing Cloth when wiping your wheel surface.

Key Benefits

- Removes grease, oil, dirt, brake dust and tape residue
- Replaces brake cleaners and other solvents
- Does not leave film residue
- Self-contained cleaning system
- Citrus-based cleaning solution
- Improves wheel weight adhesion performance
- Improves productivity

Features, Advantages, Benefits

Feature	Advantage	Benefit
Self-contained cleaning system	• Easy to dispense and clean	• Increases productivity
Citrus-based cleaning solution	• Reduces exposure to harmful solvents • Does not leave film residue	• Improves wheel weight adhesion performance
Scotch-Brite™ scrubbing applicator top	• Proven durability and performance • Valve-controlled solution dispensing • Localized cleaning area	• Quickly cleans the surface • Reduces wasteful use of cleaning solution
